

# Video surveillance solutions for safer, smarter communities

The right surveillance for secure, connected, and resilient communities

Johnson Controls integrated systems put the best-suited cameras, smart digital video recorders, and network video recorders in all the right places to help protect you against the dangers and legal liability of unauthorized visitors, identity theft, vandalism, and disruptions in public spaces.

We can install new video surveillance systems, upgrade existing CCTV cameras, or add the latest security capabilities, such as elevated body temperature cameras and remote smartphone and tablet viewing of video streams.

With many years serving local governments, from multi-campus public facilities to single buildings requiring comprehensive video surveillance, Johnson Controls guarantees you worry-free layout, installation, testing, and maintenance as well as dedicated service.

## **Our integrated video systems protect while making complex systems easier for you to manage:**

- Video cameras and monitors
- Perimeter protection
- CCTV systems
- Networking and cabling
- Recording hardware and software, including DVRs and NVRs
- Video management tools
- Remote web management and viewing
- Design, installation, training, maintenance, and dedicated support

## **Johnson Controls has extensive experience protecting buildings and sites of all sizes:**

- High volume and significance sites such as police stations, prisons and transportation hubs
- Single-location municipal buildings, such as courthouses
