

## **Product Security Advisory**

May 5, 2022 JCI-PSA-2022-09 CVE-2022-21934

ICSA-22-125-01

### Overview

Johnson Controls has confirmed a vulnerability impacting Metasys ADS/ADX/OAS Servers.

# **Impact**

Under certain circumstances an authenticated user could lock other users out of the system or take over their accounts.

#### **Affected Versions**

All Metasys ADS/ADX/OAS 10 and 11 versions.

## Mitigation

- Update all Metasys ADS/ADX/OAS 10 versions with patch 10.1.5.
- Update all Metasys ADS/ADX/OAS 11 versions with patch 11.0.2.
