JCI-PSA-2024-05 v2
CVE-2024-32753
ICSA-24-191-03

Overview

Johnson Controls has confirmed a vulnerability impacting Tyco Illustra cameras.

Impact

Under certain circumstances the Tyco Illustra cameras may be susceptible to known vulnerabilities associated with the JQuery versions prior to 3.5.0 third-party component.

Affected Versions

- Tyco Illustra Pro Gen 4 cameras prior to Illustra.SS016.05.03.01.0007
- Tyco Illustra Pro4 PTZ cameras running firmware prior to Illustra.SS010.24.03.00.0005
- Tyco Illustra Flex4 Fixed & PTZ cameras running firmware prior to Illustra.SS018.24.03.00.0010
- Tyco Illustra Pro4 MultiSensor Cameras running firmware prior to Illustra.SS017.24.03.00.0009
- Tyco Illustra Flex4 DualSensor cameras running firmware prior to Illustra.SS022.24.03.00.0008

Mitigation

- Update firmware of **Pro4 Fixed** cameras to **Illustra.SS016.24.03.00.0007**
- Update firmware of **Pro4 PTZ** cameras to **Illustra.SS010.24.03.00.0005**
- Update firmware of **Flex4 Fixed & PTZ** cameras to **Illustra.SS018.24.03.00.0010**
- Update firmware of **Pro4 MultiSensor** cameras to **Illustra.SS017.24.03.00.0009**
- Update firmware of **Flex4 DualSensor** cameras to **Illustra.SS022.24.03.00.0008**
