

K-12 Access Control Solutions

Manage student, parent and staff access more effectively

You strive to protect against intruders and predators, yet ensure a welcoming atmosphere for students, teachers and parents. Johnson Controls offers a full range of customized access control solutions to help you achieve both, including state-of-the-art video elements and visitor and identity management systems.

Customized School Configurations

Our extensive range of access control readers, doors, gates and devices assures you the right configuration for every need, from multi-story urban buildings to sprawling suburban grounds.

Johnson Controls guarantees worry-free turnkey service and support, from initial assessment and layout to expert installation, locally-based maintenance, inspections and testing.

Remote Access

When you add remote access capabilities, administrators and staff can control access to multiple areas from web-enabled devices, even during lockdowns. That's critical in emergencies.

Johnson Controls has extensive K-12 security experience:

- Large public districts with multiple schools
- Parochial, charter and other private schools
- Urban, suburban and rural locations
- Expertise in securing funding

K-12 Education Security Experts
